Package: biobricks (via r-universe)

October 12, 2026

Type Package

Title Access Data Dependencies Installed Through 'Biobricks.ai'

Version 0.2.2

Description Provides an integrated data management solution for assets installed via the 'Biobricks.ai' platform. Streamlines the process of loading and interacting with diverse datasets in a consistent manner. A list of bricks is available at <https://status.biobricks.ai>. Documentation for 'Biobricks.ai' is available at <https://docs.biobricks.ai>.

Index **3**

`bbassets` *Return a list of tables for a brick*

Description

Return a list of tables for a brick

Usage

```
bbassets(brick)
```

Arguments

`brick`	the name of the brick to load

Value

A named list where each element is a character string representing the full path to a specific asset file. The keys of the list correspond to the types of asset files available.

Index

bbassets, 2
